Subject: Publication date

Examiner Li,

The publication date for Oncology research vol. 12 issue 5, 2000 was June 14, 2001. I questioned the publisher about the 2001 date since the journal date was 2000 and he told me that they were behind in releasing the journals. If you still have any questions about this date, you can contact the publisher at 914-592-7720. They are very nice and would be glad to talk to you.
